Days

## **What our users are saying**

I was hooked the very first time.

“ Love, love, love this! Volunteering is my second job to motherhood/womanhood, and I was tired of frustrating efforts to make life a little easier, so when a fellow mom introduced me to SignUpGenius I was hooked the very first time. I want to let the SignUpGenius creators and workers know how grateful I am for this amazing tool. It has increased the joy and decreased the stress!

Anne Johnson  
Tokyo, Japan

I can focus on coaching instead of organizing.

“ SignUpGenius has made organizing and coordinating our (Team in Training) season so much more efficient than before. I simply take the training calendar and create sign up events. It makes it easy to publish our entire training event calendar in one single, accessible place. It removes the administrative burden of tracking and reporting RSVPs. It reduces errors. It encourages participation because everyone can see who else is signed up. I can focus on coaching instead of organizing. I simply cannot imagine coordinating the team training without SignUpGenius.

Ann Jeffran  
Madison, Wisconsin

**SignUpGenius is the best thing since sliced bread. It makes organizing volunteers and food assignments a breeze!**
